

Strategy & Governance

Online Symposium

Session 1 - Wednesday 1 June 2022
Session 2 - Wednesday 15 June 2022
Session 3 - Wednesday 29 June 2022

Governance involves the systems, frameworks and practices of the board and the leadership team to set an organisation's objectives. The Royal Commission into Aged Care Quality & Safety has indicated that aged care providers should be more accountable for the delivery of the standard and quality of care that elderly Australians are entitled to receive. Good governance builds a bridge between an organization's strategic plan's commitment to greatness and operational reality.

ACSA's Strategy & Governance Symposium is designed in collaboration with our members to provide content that is relevant to the interests and concerns of those involved at a strategic level within organisations. The Symposium has a national focus and will bring together speakers and attendees from around Australia to discuss some of the most pressing and timely issues facing the industry.

This event is scheduled to take place over 3 dates, each session will be for 2 hours and attendees have the option to attend all sessions or choose which sessions fit their needs.
